Company Profile

Established since 1974, Terminal Display Systems Ltd is a leading UK manufacturer and specialist supplier of Colour Image Displays with thousands of units installed world-wide, providing information and presentation displays in many market sectors. BS EN ISO 9002 World Class Manufacturing facilities at our UK headquarters provide the guarantee of quality to our highly valued and prestigious customer base. TDS Customer Service and Product Support Teams provide full warranty, technical assistance and on-site maintenance to ensure successful integration and operation throughout the product life.

Collaboration with Zenith Electronics Corporation, one of the worlds leading TV manufacturers, enables TDS to introduce this comprehensive range of BIG SCREEN Television Products.

SEq Audio System

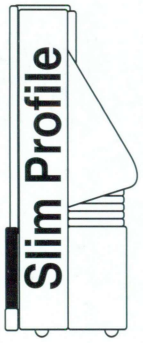
Zenith's exclusive Premium Spatial Equalisation (SEq) audio system employs unique electronics to create a wider stereo separation with full rich sound at any listening level.

AVI Advanced Video Imaging

Zenith's latest advance in Image enhancement technology lets you adjust the picture for warmer or cooler tones whilst automatically controlling contrast ratio, producing vibrant colour pictures with amazingly sharp image detail.

18 Jack Rear AV Panel

Provides connections for VCR's, video cameras, cable, satellite, video games etc plus S Video input.



The slim profile of these rear projection TV's allows even the 60 inch unit to pass through standard doorways.
